PROFESSIONAL SUMMARY

Software Development Engineering student with hands-on experience as a Full Stack Engineer, currently building and maintaining features for a production application at John Deere. Comfortable working across the stack, from backend services in Java and Spring Boot to frontend components in React and JavaScript, familiar with Git, code review, and CI/CD as part of everyday development. Prior experience in bilingual customer service contributed strong communication skills and the ability to stay composed under pressure. Looking for an entry-level Software Engineer or Full Stack Developer role.

TECHNICAL SKILLS

Backend: Java, Spring Boot, REST APIs, Object-Oriented Programming

Frontend: JavaScript, React, HTML5, CSS3

Databases: SQL, Relational Databases

Tools & DevOps: Git, GitHub, CI/CD pipelines, code reviews

Other: Agile/SDLC, debugging, Python, C, TypeScript, Excel

PROFESSIONAL EXPERIENCE

Software Development Intern (Full Stack Engineer) — John Deere *Jul 2025 – Present*

- Build and maintain features for a production enterprise application, working across the stack with backend logic in Java/Spring Boot and UI components in React and JavaScript.
- Develop and consume RESTful APIs to connect frontend interfaces with backend services.
- Read and update application data in relational databases using SQL.
- Debug and resolve issues on both the frontend and backend to improve reliability and performance.
- Collaborate with the development team through Git, including branching, pull requests, code review, and merge conflict resolution.
- Deploy application changes through the team's CI/CD pipeline, following established SDLC practices.
- Participate in agile ceremonies and contribute to reusable components, keeping code clean and easy for others to work with.

Bilingual Customer Service Executive — Banorte *Jan 2024 – Jun 2025*

- Provided customer support to a bilingual, international client base in a financial services setting, resolving issues efficiently under time pressure.
- Handled sensitive account matters with patience and attention to detail, building strong communication skills.
- Collaborated with a team to meet service goals, developing habits in professionalism and teamwork that carried over into engineering work.

EDUCATION

Bachelor's Degree in Software Development Engineering *In Progress*

Facultad de Ingeniería Mecánica y Eléctrica (FIME) — Universidad Autónoma de Nuevo León (UANL)
